

	TV, WiFi	170731
		Side 1 (1)

Tv

- 40 inch Samsung TV with approximately 20 Spanish channels
- Parabol, with approximately 80 channels – British, Norwegian, Danish and Swedish.

The "Samsung" remote control is for the TV
The "Gi" remote control is for the parabol receiver

In order to watch parabol channels change the "source" to HDMI 1 and press "on" on the parabol remote control to start the parabol receiver.

To change channel press "OK" and then choose channel.
Confirm your choice by pressing "OK" again.

If needed there is a HDMI cabel connected to "HDMI 2". This can be used to connect a computer or DVD-player.

WiFi

Name: scansat10
Password: durabelab

Problems:

Try pulling out the cord to the router and wait for 2 minutes.
Then connect the cord again and try again.
